PROFESSIONAL EXPERIENCE

- **March 2025 - Present**
Junior Full-Stack Developer
Webeasy (Remote)
Fez, Morocco

- Joined the company as a six-month intern before continuing as a freelance developer.
 - Built and integrated SaaS features, including customer review widgets, custom dashboards, SEO-optimized blog pages, and landing pages.
 - Developed front-end components using Vue.js, Next.js, and Tailwind CSS, as well as back-end services using Node.js, Express.js, and MongoDB.
 - Optimized API performance and delivered responsive user interfaces to improve the overall user experience.
- **October 2023 - Present**
Web Developer
MegaDev (Hybrid)
Salé, Morocco

- Designed and developed a web application for car rental management, applying the skills acquired during an internship at Kichui.
 - Built a full-stack platform using Laravel, MariaDB, Bootstrap, and jQuery, including vehicle tracking and secure role-based access control.
 - Optimized SQL queries, reducing processing time by 50%.
 - Automated daily backups, saving \$20 per server per month.
- **May – September 2023**
Start-up Incubation Intern
Kichui. (Remote)
Paris, France

- Conducted interviews with owners and managers of car rental companies to identify their main operational challenges.
 - Analyzed market needs and proposed digital solutions to streamline and optimize business processes.
